

HYOSUNG MX5200

THE MOST FLEXIBLE SOLUTION FOR HIGH-VOLUME, HIGH-VALUE TRANSACTIONS

Introducing Nautilus Hyosung's latest addition to the retail family - the 5200. This flexible solution offers maximum service and security for high-volume, high-value transactions, blending the usability and maintainability of a retail ATM with the advanced functions and security of a financial institution cash dispenser.

Features

INNOVATIVE DESIGN

The modern design and advanced function options of the 5200 make this ATM the ideal choice for bank-branded, high-end retail locations and sites requiring greater security. The 5200 offers a 12.1-inch TFT LCD monitor with a function key or a 2.1-inch combination touch/function key user interface (Microsoft® Windows® 7 only).

HIGH CAPACITY

The 5200 cash capacity ranges from a single 1,000-note cassette to three 2,000-note cassettes, providing a maximum load of 6,000 notes. Using proven Nautilus Hyosung dispenser technology, the 5200 is the ideal platform for high transaction volume sites.

ENHANCED SECURITY

Security is essential for ATMs and cash dispensers. The 5200 offers customers a choice of a UL 291 certified business hours safe with enhanced break-in protection or a heavy-duty Level-1 safe. Enhanced physical protection includes a reinforced cash tray and heavier metal plating. For added intrusion and fraud security, the 5200 offers a camera-ready fascia, optional anti-skim EMV card reader and support for Transport Layer Security (TLS) network encryption protocol.

RELIABILITY

The 5200 can be counted on to stand up to heavy use. The system incorporates Nautilus Hyosung modular component architecture designed for high reliability, quick and easy service and accessibility.

DESIGNED FOR THE FUTURE

The 5200 provides a choice of either an affordable Microsoft® Windows® CE 6.0 processor running Nautilus Hyosung popular retail application software, or for even greater flexibility, a Microsoft® Windows® 7 platform running the retail application or NDC emulation. The Nautilus Hyosung enhanced retail application enables customers to earn additional revenue from transactions such as Dynamic Currency Conversion (DCC), donations, lottery and surcharge segmentation. The NFC reader option also positions the 5200 for future support of cardless cash withdrawals.

HYOSUNG MX5200

Specifications

System Platform

- Microsoft® Windows® CE 6.0
- Microsoft® Windows® 7 (optional)

Screen Display

- 12.1-inch TFT LCD

Card Reader

- EMV dip-type card reader
- Anti-skimming (optional)

Cash Dispenser

- 1,000-note removable cassette*
- 2,000 note removable cassette*
- Upgradable to 3 cassettes (Maximum 6,000 notes)

Input Type

- 8 function keys
- Combined function key/touch (Microsoft® Windows® 7 Only)
- ADA compliant
- PCI compliant EPP
- RKT (optional)

Communication

- TCP/IP, dial-up

Security

- UL291 business hour safe
- Level-1 safe (optional)
- Electronic lock
- Cencon or S&G lock (optional)

Printers

- Thermal line 3" receipt printer
- Electronic journal

Power Supply

- AC 110-240 V, 50-60 Hz

Operating Environment

- Temperature: 0°C - 40°C (32°F - 104°F)
- Humidity: 20% - 85%

Dimensions

- Height: 55.4" (1,407mm)
- Width: 15.7" (399mm)
- Depth: 22.8" (580mm)
- Weight: 287lbs. (130kg)

Additional Features

- Lead-through indicator
- Earphone jack
- NFC reader (optional)
- Digital receipt
- Supports 6 languages; English, Spanish, French, Japanese, Chinese, Korean
- Enhanced standard 1 emulation
- Dynamic currency conversion (DCC)
- Donations transaction
- Decimal point percentage surcharge
- TLS protocol communication
- NDC emulation (Microsoft® Windows® 7 Only)
